Extract from AF SCI Security Advisory

"Classified intelligence information, including SCI, appearing in the public media does not constitute declassification. A person who has or had access to intelligence information by virtue of his/her official capacity may not cite such information as a source in any article, paper, speech or other forum. The statement 'the views expressed in this article are those of the author and do not reflect the official policy or position of the Department of Defense or the U.S. Government' does not obviate the implied confirmation of the authenticity of the intelligence information in the article, paper, etc. The mere acknowledgement of the person's military title, U.S. Government position or biography, however abbreviated, suffices to give a foreign intelligence service information that could damage the United States within the meaning of 18 USC 793, 794, 795, 796, 797, 798, 952 and/or 50 USC 783B."
